

### **40 day health wellness pdf**

Health, as defined by the World Health Organization (WHO), is "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity." This definition has been subject to controversy, as it may have limited value for implementation. Health may be defined as the ability to adapt and manage physical, mental and social challenges throughout life.

Wellness tourism is travel for the purpose of promoting health and well-being through physical, psychological, or spiritual activities. While wellness tourism is often correlated with medical tourism because health interests motivate the traveler, wellness tourists are proactive in seeking to improve or maintain health and quality of life, often focusing on prevention, while medical tourists ...
