Tonja Motley Locklear University of Kentucky, tlocklear@averett.edu Click here to let us know how access to this document benefits you.

## **A DESCRIPTIVE, SURVEY RESEARCH STUDY OF THE STUDENT**

Descriptive studies often represent the first scientific toe in the water in new areas of inquiry. A fundamental element of descriptive reporting is a clear, specific, and measurable definition of the disease or condition in question.

### **Descriptive studies: what they can and cannot do**

Descriptive research design is a valid method for researching specific subjects and as a precursor to more quantitative studies. Whilst there are some valid concerns about the statistical validity, as long as the limitations are understood by the researcher, this type of study is an invaluable scientific tool.

### **Descriptive Research Design - Observing a Phenomenon**
