The Great Recession was a period of general economic decline observed in world markets during the late 2000s and early 2010s. The scale and timing of the recession varied from country to country. The International Monetary Fund concluded that the overall impact was the most severe since the Great Depression in the 1930s. The Great Recession stemmed from the collapse of the United States real ...

The recent initiatives of the construction industry to embed sustainable strategies in its processes can be enhanced when clear and practical benefits of such integration are available to project stakeholders to support their decision-making.

### **Identifying and prioritizing the benefits of integrating**

The immediate or proximate cause of the crisis in 2008 was the failure or risk of failure at major financial institutions globally, starting with the rescue of investment bank Bear Stearns in March 2008 and the failure of Lehman Brothers in September 2008. Many of these institutions had invested in risky securities that lost much or all of their value when U.S. and European housing bubbles ...
