Emotion as the basis for computational autonomy in cognitive agents Darryl N. Davis Neural, Emergent and Agent Technology Research Group, ... agent's autonomy can be described in terms of niche spaces and design spaces. An ... an appropriate computational model, an agent can regulate this basis for autonomy in

Emotion as the basis for computational autonomy in

The concept of autonomy is a central concept in distributed computational systems and in multi-agent systems in particular. Most researchers do not discuss the details of this concept, but rather ...

Some entities may have neither agency nor autonomy. Computational entities. ... autonomy. These agents are more like the principals defined in this paper. ... when you sign up for Medium.

What Are Autonomy and Agency? â€“ Jack Krupansky â€“ Medium

We show that the ability of quantum computing agents to perform certain computational tasks more efficient than classically computing agents is at the cost of limited self-autonomy, due to non-local effects of quantum entanglement.
