Elementary algebra encompasses some of the basic concepts of algebra, one of the main branches of mathematics. It is typically taught to secondary school students and builds on their understanding of arithmetic. Whereas arithmetic deals with specified numbers, algebra introduces quantities without fixed values, known as variables. This use of variables entails a use of algebraic notation and an ...

Authorship. This document probably dates to the 4th century BC. It is not known who actually wrote the document. It is attributed to a conversation between Confucius and his disciple Zengzi. A 12th-century author named He Yin claimed: "The Classic of Filial Piety was not made by Zengzi himself. When he retired from his conversation (or conversations) with Kung-ne on the subject of Filial Piety ...
