Georgism, also called geoism and single tax (archaic), is an economic philosophy holding that, while people should own the value they produce themselves, economic value derived from land (often including natural resources and natural opportunities) should belong equally to all members of society. Developed from the writings of the economist and social reformer Henry George, the Georgist ...

Whenever the word "projections" is used, this refers to projections made by the United States Social Security Administration. The process of making projections is not an exact science, and actual outcomes often differ from those predicted (see Accuracy of Projections). The Social Security Trustees Report contains high, low, and intermediate projections.

Il signoraggio (letteralmente "aggio del signore", di derivazione medioevale) è l'insieme dei redditi derivanti dall'emissione di moneta. Il premio Nobel Paul R. Krugman, nel testo di economia internazionale scritto con Maurice Obstfeld, lo definisce come il flusso di "risorse reali che un governo guadagna quando stampa moneta che spende in beni e servizi".
