A flying car is a type of personal air vehicle or roadable aircraft that provides door-to-door transportation by both ground and air. The term "flying car" is also sometimes used to include hovercars.. Many prototypes have been built since the first years of the twentieth century using a variety of flight technologies and some have true VTOL performance, but no flying car has yet reached ...

Slash-and-burn agriculture, or fireâ€“fallow cultivation, is a farming method that involves the cutting and burning of plants in a forest or woodland to create a field called a swidden. (Preparing fields by deforestation is called assarting.). In subsistence agriculture, slash-and-burn typically uses little technology.It is often applied in shifting cultivation agriculture (such as in the ...
