environmental biotechnology principles and pdf

The Market for Environmental Biotechnology The UK's Department of Trade and Industry estimated that 15-20% of the global environmental market in 2001 was biotech-based, which amounted to about 250-300 billion US dollars and the industry is projected to grow by as much as ten-fold over the following five years.

Environmental Biotechnology Principles and Applications

Environmental biotechnology is not an easy subject to cover, but therefore so much the more important that it should be. For years, the environmental technologies had a little too much tail wind because of the overwhelming sympathy for green solutions. This often led to misuse and discredit of the technologies among some end users.
