Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

January 2013â€”Use of the Papanicolaou test has significantly decreased the incidence of cervical carcinoma, especially cervical squamous cell carcinoma. For endometrial adenocarcinoma, which is the most common malignancy of the gynecologic tract there is no cost-effective screening test. The Bethesda system 2001 recommends reporting normal endometrial cells in women 40 years or older and any ...
