Business process outsourcing (BPO) is a subset of outsourcing that involves the contracting of the operations and responsibilities of a specific business process to a third-party service provider. Originally, this was associated with manufacturing firms, such as Coca-Cola that outsourced large segments of its supply chain.. BPO is typically categorized into back office outsourcing, which ...

We do this via breakthroughs in insights, technology, analytics and human intelligence that bring the advances in data science together with the possibilities of human science.

A New Path to Your Success Via Human Data Science - IQVIA

Insourcing is the commencement of performing a business function that could be contracted out internally: either with the help of a third-party provider who performs the task on-site, or by conducting said task independently. Very often it is seen as opposite of outsourcing. Insourcing is a business decision that is often made to maintain control of critical production or competencies.

Components of the productivityâ€“compensation gap. The gap between productivity and compensation can be divided into two components: (1) the difference between compensation adjusted by the CPI and by the output deflator, as detailed in the previous section and (2) the change in the labor share of income. 7 The labor share of income measures how much revenue is going to workers as opposed to ...
