Organizational learning is the process of creating, retaining, and transferring knowledge within an organization. An organization improves over time as it gains experience. From this experience, it is able to create knowledge. This knowledge is broad, covering any topic that could better an organization.

Organizational learning - Wikipedia

Project management processes and the training of new project managers (PM) must consider the impact of organizational change on the success and failure of project implementations.

The integration of project management and organizational

Many people resist acknowledging the influence of organizational factors on individual behavior—especially on misconduct—for fear of diluting people’s sense of personal moral responsibility.

CHALLENGES FACING CHANGE MANAGEMENT THEORIES AND RESEARCH

Since the mid-2000s, organizational change management and transformation have become permanent features of the business landscape. Vast new markets and labor pools have opened up, innovative technologies have put once-powerful business models on the chopping block, and capital flows and investor demand have become less predictable.

10 Principles of Leading Change Management

Applied Behavior Analysis. Applied behavior analysis (ABA) is the process of applying interventions that are

based on the principles of learning derived from experimental psychology research to systematically change behavior and to demonstrate that the interventions used are responsible for the observable improvement in behavior.
